**Uzasadnienie pytań z quizu:
pytania mają na celu filtrować, jakie
wydarzenia będą pokazywane.**

Jeśli odpowie się na pytanie 1. negatywnie, takie wydarzenia w ogóle nie będą pokazywane użytkownikom, przycisk tworzenia wydarzenia zniknie itd. Co do reszty pytań, to one tylko wpływają na algorytm wyszukiwarki - jeśli podał się, że nie jest się zainteresowanym wydarzeniami na zewnątrz, system pokaże je w wyszukiwarkach najpóźniej jak to możliwe.

Po wypełnieniu tej ankiety do opcji sortowania activities i attractions dochodzi opcja "Compatibility with you" (domyślna wtedy opcja sortowania).

Moim dodatkowym pomysłem w aplikacji było dodanie strony "Profile", która pozwala na zarządzanie danymi i kontakt z obsługą klienta.
